Home Inspections * Septic Tank Service * Contractors Landscapers * Lead Base Paint Testing Services* Pest Control Radon Testing Services * Surveyors * Well Drillers * Heating & Plumbing Tree Removal * Excavators * Snow Plowing * Security Alarm Systems Appliances Repair * Electrical Contractors * ETC

NOTE: It is the recommendation of Howard & Associates that the seller/sellers and purchaser/purchasers have their own independent home inspection conducted prior to selling and purchasing.

Howard & Associates has considerable knowledge of the sale and purchase of real estate, but it cannot give advice in matters of law, taxation, financing, surveying, wood infestation, structural soundness, engineering, etc., and therefore, do not make any claims or representations as to the conditions of any items of any property.

Howard & Associates expressly disclaims any and all liability relating to the inspector/inspection service chosen or performance of their inspection, or the condition of the property which will be or could have been revealed by the inspection.

Howard & Associates, its agents and employees, cannot and will not make any recommendations or endorsements for any goods or services including but not limited to builders, home inspectors, appraisers, engineers, surveyors, banks, mortgage brokers or any other vendor or services.

The following service list, is only a partial list of service providers, and is provided as a service of Howard & Associates Real Estate.

NOTE: The internet as well as the yellow page telephone directories are a great source for locating additional service providers.

Howard & Associates, does not endorse or recommend any of the following services providers. Sellers and Purchasers have the right to choose the service provider/providers of their own choosing.

Radon Testing And/Or Abatement (Mitigation)

The Department of Environmental Protection has informed us that the status of firms that are certified by the DEP-BRP to provide radon services is updated daily. Therefore, they have the only record of certified firms. Howard & Associates Real Estate Services cannot verify certification of radon inspectors, therefore we suggest that you call 1-800-237-2366 for PA and The Chautauqua County Board Of Health For NY, 716-753-4344

House Numbering Guide for FINDLEY LAKE New York

FINDLEY LAKE, NY

TOWN OF MINA, CHAUTAUQUA COUNTY, N.Y.

The Hamlet of Findley Lake is situated on the western boarder of New York State. Findley Lake was formed by the damming of two ponds in 1815, covering an area of approximately 300 acres. The water level is controlled by a dam with a summer elevation of 1420 feet above sea level and is lowered 32 inches for a winter level.

Findley Lake Yesterday and Today

Findley Lake, the name alone means so much to those who have spent any amount of their time on and around its shores. But why? Can it be just the restful lapping of the cooling waters, or the gentle breeze through the flowers and trees? No, I think there's more. Its history is ever changing. From when a young man of Scot-Irish decent came from Ireland searching for a place to raise a family and finding just that site purchased it in 1811. He then went off to war and returned in 1815 to start his mill, then built his home in 1816. By the building of the dam for the mill it created a large pond and was known as Findley's Pond, then later Findley's Lake. The settlement sprung up around the mills, hotels, several stores, churches, and schools. Fires tried to destroy it but it kept springing back. We had our own Little Chautauqua. Its name, Lakeside Assembly, started in 1895 and ran through 1915.

Steamboats in the summer and horse races in the winter, those are all memories now. The lake today still has its activities, the town is growing with changes. So we are again making History!

Article provided by Findley Lake Town Historian - Mrs. Paul (Sharon) Scarem
